

This is a world class initiative – working to fasttrack the safe use of drones at scale in the Energy sector. This will dramatically reduce costs for monitoring and greatly reduce environmental footprint. It is about technological innovation, clean energy and international leadership. The solution will also be widely applicable in other sectors and jurisdictions.

"This project is a shining example of what PTAC has done for over 24 years: facilitate and help the oil and gas industry significantly reduce its operations costs, development activities costs, GHG emissions, and environmental footprint - all while improving safety through collaborative innovative solutions." Said Dr. Soheil Asgarpour, PTAC President.

The AirMarket EUT team

AirMarket is a UTM company focused on enterprise solutions. It has a full technology stack, unique skills, and experience in operationalizing UTM services and Beyond Visual Line of Sight flights using cellular infrastructure.

TELUS is a dynamic, world-leading communications and information technology company with \$15 billion in annual revenue and 15.4 million customer connections spanning wireless, data, IP, voice, television, entertainment, video and security. We leverage our global-leading technology to enable remarkable human outcomes.
